How the Effective Behavior and Instructional Support (EBIS) Process Works in Secondary Schools

The EBIS team has three purposes:
1. To review school-wide behavior and academic data in order to evaluate the effectiveness of core programs.
2. To screen and identify students needing additional academic and/or behavior support.
3. To plan, implement, and modify interventions for these students as well as monitor their progress. Depending on each student’s “response to intervention,” a formal referral for special education evaluation may result.

EBIS is intended to be a structured, systematic process involving the following features and activities: team membership, school-wide planning, planning for the 20%, monthly meetings, and individualizing-intensifying interventions.

**Team membership:** Leadership by the principal is essential. EBIS Team membership also must include classroom teachers representing grade levels, the Instructional Coordinator, Reading Specialist, School Counselor, and specialists from Special Education, Alternative Education, and ELL programs.

**Planning for all students (School-wide):** Three times a year, early fall, and at the end of the first and third quarters, School-wide EBIS teams review data on student performance such as academic data (e.g., Maze-CBM, OAKS, ELPA, ACT, etc.), behavior referral data, grades, and attendance in order to evaluate the effectiveness of the “Core Programs”. Data should be reviewed for “all students” including disaggregating results by race and program (i.e., SPED, ELL) to look for trends for school improvement.

The EBIS model is predicated on the notion that all students can make adequate growth and that Core Programs should meet the needs of at least 80% of the student population. If this is not the case, the team needs to plan and implement professional development to shore up the Core Program.” This means the School-wide EBIS Team **MUST** inspect Core Programs, foster difficult yet productive conversations about whether the Core is meeting the needs of 80% of all students, and plan prevention/intervention activities that target areas which data analysis suggests need attention (e.g., professional development, re-teaching of basic skills, re-teaching school rules and expectations consistently, etc.). It is vital to have the building principal on the team to ensure that fundamental organizational decisions can be made, resources can be allocated, and instructional delivery is effective and the program is delivered with fidelity.

**Planning for the 20% (Targeted groups):** Students who have been screened and placed into reading, math, or behavior interventions and/or who have other significant academic, behavioral or attendance problems are listed on the EBIS Group Intervention & Planning Form. This is usually best accomplished by grade level or regional teacher teams with core member(s) of the EBIS team assisting them. At the monthly EBIS team meetings, these teacher teams choose interventions for groups of students with similar needs from the appropriate Standard Protocol (i.e. Reading, Behavior, etc.). They also decide on what progress data to collect and the person responsible for collecting the data. The appropriate **EBIS Student Intervention Profile** is initiated at this time for all students in interventions.

**EBIS 20% team meetings:** EBIS teams convene monthly to evaluate the progress of the students involved in group and individual interventions including those students that receive services through special education. The team reviews progress-monitoring data for each student, analyzing aimlines and trendlines (see “Decision Rules for Grades 6-12”). Using the decision rules, one of four different decisions may be made at this meeting for each student being reviewed:
1) the group intervention has been successful and the student no longer needs it
2) the intervention is working, but should be continued as it is necessary for continued success;
3) the group intervention is not working for the student and should be revised or refined. (If the student is in a Tier Three Intervention, the team should first collect and analyze data as described in the “Individualizing, Intensifying Intervention” section on page 3.);
4) the student has not made adequate progress during an entire semester in the most appropriately intensive intervention (i.e. Language!) and therefore the team should consider a referral for a special education evaluation.
**Individualizing, Intensifying Intervention:** When a student has four consecutive progress monitoring scores below the aimline or at least 6 scores whose trendline will not meet the target score by year end, a change in intervention should be made. If the student is currently in Tier Three Intervention, additional information must be gathered in order to select an intervention that is specifically targeted to the student’s needs. EBIS teams should fill out and send the EBIS Team Meeting Notice to parents inviting them to attend a meeting to gather information and begin planning for a more individualized intervention. A Developmental History should be completed at this time and the parents should be given the RTI Parent Brochure describing how the Response to Intervention process works. If the student is an English Language Learner (ELL), the ELL teacher should obtain information about the child’s language development and evaluate how the student’s cohorts are progressing as well.

Prior to the parent meeting, teams review each student’s cumulative record using the Individual Problem Solving Worksheet. Although time consuming, this level of evaluation is necessary for only a small percentage of students. It provides detail on the student’s history and needs and is important for designing an effective, individualized intervention. Another resource for students with behavioral issues is the Functional Behavior Assessment protocol, which can easily be completed by the team with support from the counselor and/or school psychologist.

At the individualized planning level, it is also necessary to assign a case manager from the EBIS team for each student. The case manager’s responsibility is to ensure that the intervention is implemented consistently and with fidelity, and that progress is monitored according to the schedule agreed upon by the team. In addition, the case manager continues to track intervention details using the EBIS Student Intervention Profile. Case managers report back to the EBIS team on the progress of the students under their supervision at least every six weeks.

Based on the Developmental History, Individual Problem Solving Worksheet, ELL information, and progress monitoring data, the EBIS team will develop an intervention that specifically targets the student’s individual needs. Progress monitoring continues and after at least 6 weeks in the individualized intervention or at the end of the semester, the team will determine whether:

1) The student has improved substantially and no longer needs to be included in an intervention group.
2) The student has improved substantially and the team reduces the intensity of the intervention and continues to monitor progress.
3) The student is an English Language Learner and is struggling with reading comprehension in comparison with his or her ELL Cohort. The intervention designed to improve comprehension will be continued for one additional 4 to 6 weeks period prior to referring to Special Education.
4) A referral for a formal special education evaluation is appropriate. The information from the intervention profile, progress-monitoring information, developmental history, and individual problem solving worksheet should be included with the referral as they provide evidence regarding the student’s responses to various interventions. While RTI is used only for Specific Learning Disability identification, the information collected may be useful for any special education referral. See the most current Special Education Procedures Manual for details on the special education process.
**ACADEMIC Intensify/Change Intervention Rule:** When students fail to make sufficient progress, intensify the intervention using the appropriate TTSD Standard Protocol.

**20% Decision Rule:** The lowest 20% of students based on school-wide screening measures, and/or with chronic behavior needs are discussed to determine the appropriate intervention.

**Refer for Special Education Evaluation Rule:** When students fail to make sufficient progress after 1 semester in the most intensive, instructionally appropriate intervention (e.g., Language!).

**TEAMWORK TIMELINES:**

EBIS School-wide teams meet early fall, and after the 1st and 3rd quarters to review data and make decisions about school-wide progress.

EBIS Grade level/teacher teams meet at least monthly to review data, plan and adjust interventions.

**DECISION RULES:**

**80% Decision Rule:** If 80% of students by subgroup are meeting benchmarks, celebrate the success of your Core Program and look for ways to improve. If less than 80% are meeting benchmark, review the Core Program.

**20% Decision Rule:** The lowest 20% of students based on school-wide screening measures, and/or with chronic behavior needs are discussed to determine the appropriate intervention.

**Intensify/Change Intervention Rule:** When students fail to make sufficient progress, intensify the intervention using the appropriate TTSD Standard Protocol.

**Individualize Intervention Rule:** When students fail to make sufficient progress despite intensified interventions, develop an individually designed intervention.

**ALL STUDENTS RECEIVE QUALITY BEHAVIOR AND ACADEMIC INSTRUCTION AND SUPPORT**

All Students Are Screened for Additional Needs (Fall, Winter, Spring; MAZE, OAKS, ODRs, Etc.)

Small Group Interventions are Designed by EBIS Teacher Teams

Interventions are Individualized

### EBIS Reading Decision Rules – Grade 6 - 12

**Identifying and Placing Students in Intervention**

- Student at each grade level scoring in the lowest 20 percent on Maze-CBM, or at or below the 35\(^{th}\) percentile on the OAKS, are further assessed to determine skill level, instructional needs, and appropriate placement in a reading intervention (See Reading Placement Criteria). Students meeting criteria will be placed in interventions and progress monitoring will begin.

(continue decision rules on reverse side)
Progress Monitoring

- Progress monitoring will occur every other week with Maze measures for students in literacy interventions. Grade level material will be used to assess progress toward grade level goals.
  - See page 9 in the EBIS Handbook for progress monitoring guidance for students far below grade-level expectations.

Intensifying Interventions

The EBIS team will consider intensifying an intervention under the following conditions:

- The student has 4 consecutive Maze-CBM scores below the aimline.
- Maze-CBM trendline analysis of at least six data points indicates a flat or declining slope AND scores are below the 50th percentile.
- For ELL Students, check the progress of the cohort group after each 6-week period to determine whether an individual student’s progress is significantly different from the group.
- Students that have not been identified as eligible for special education services should be moved to increasingly intensive literacy interventions. In most cases this will be the Tier III Language! program.

Individualizing Interventions

- The EBIS team will develop an individualized intervention if a student in a Tier Three intervention has four consecutive Maze CBM scores below the aimline or six scores whose trendline will not meet the target score by year end. Prior to individualizing the intervention, the EBIS team should select a case manager, complete the Individual Problem Solving Worksheet, complete a developmental history, provide parents with the RTI Brochure, and if the student receives ELL services, do a language level assessment.
- Selected members from the EBIS team will meet with parents to develop an individualized plan and interventions that are based on all sources of information.

Refer to Special Education

- Maze-CBM data continues below the aimline after one semester in the most appropriately intensive intervention OR
- After one highly structured, 6-week, individually designed intervention, progress continues below aimline OR
- The team determines that the support is so significant that the student will need continued individual and intensive instruction.
- If the student is an English Language Learner and is struggling with reading comprehension in comparison with their ELL Cohort, then an intervention designed to improve comprehension should be implemented for no more than one semester prior to referring to Special Education.

Exiting Interventions

- Maze scores result in 4 data points above the aimline AND are at or above the 50th percentile;
- Grade+ scores are at or above the 4th stanine;
- OAKS scores are at or above the 36th percentile
Progress Monitoring Guidance for Students Far Below Grade-Level Expectations

• For students whose reading skills are well below grade level, the EBIS team may choose to monitor progress at the student’s instructional level as well as at their grade level.
  o Only grade level data should be used in making high-stakes decisions (such as referral to special educations).

• The team may determine that it is appropriate to monitor less frequently in grade level material (i.e., monthly, or 3 times per year) in cases in which the student has previously been identified with a learning disability, or in other situations in which data for high-stakes decisions is not needed.

• For monitoring progress at a student’s instructional level, the team will select the measure that best matches the instructional content and goals, allows the student to demonstrate success with skill acquisition, and at the same time provides room for growth over time.
  o For most secondary students, Maze-CBM will continue to be the measure of choice as it will meet these criteria and is directly connected to Maze-CBM screening measures. For students with more significant deficits, the DIBELS Oral Reading Fluency measures may be used.
  o Suggested Maze-CBM probes to use with students in Language! (in addition to on grade-level probes):
    ▪ 1st Grade for Book A,
    ▪ 2nd Grade for Book B,
    ▪ 5th Grade for Book C,
    ▪ 8th Grade for Books D-F

ELL Decision Rules for Placement in Reading Interventions
New Students/Yearly Screening

1. Gather the following data:
   - Latest OAKS R/LA RIT score
   - Latest LAS/ELPA scores

2. If the OAKS score is greater than the 36%tile then place student in regular Language Arts.

3. If the OAKS score is equal to or below the 36%tile then check the students ELPA score: (use LAS if no ELPA score)
   If they have a 1 or 2 then consider the following:
   - Have they been in ELL for more than 3 years?
   - What is their oral language score?
     - If they have been in ELL for more than 3 years than proceed with normal screening regardless of the oral language score. (If the oral score is a 1 or 2 the EBIS team should be looking closely at this student.)
     - If they have been here less than 3 years and they have an ELPA speaking score of 1 or 2 then place students in ELD and screen using Language! 4th edition placement test.

4. IF students screen into the LANGUAGE! Program, then do the following:
   - Place students scoring 1- 3 in the same class with an ELL Language! teacher using Language! 4th edition Redband based on the results of the placement test.
   - Place students scoring a 4 or 5 with any LANGUAGE! teacher based on results of placement test.
Guidelines for English Language Learners (ELLs)

If an ELL student’s scores fall in the lowest 20% of all students in the same grade level at the same school, the ELL teacher should present the following information at the next EBIS meeting:

- language level,
- length of time in the country
- language(s) spoken in the home
- language of instruction
- length of time in ELL
- the completed "EBIS ELL Instructional History" document.

The ELL teacher should also review the progress of other ELL students in the reading intervention. The ELL teacher with help from the EBIS team should identify a “cohort group” if possible. A cohort group is defined as at least three students with similar language levels, educational experiences, and cultural backgrounds (such as length of time in country, language in the home, language of instruction, and length of time in ELL).

Sheltered instruction is a critical component of core instruction for English Language Learners. Confirm the following occurs in the core reading group:

1. students understand the directions and instructions
2. vocabulary is pre-taught
3. students are actively engaged and given multiple opportunities to interact with each other and the teacher
4. the instructor knows the language levels and characteristics in the cohort group
5. the curriculum is appropriate for the English language level of the students

If the group is making progress, but the student is not:

1. The EBIS team places the student in an intervention and monitors his or her progress.
2. Ensure that the instructor knows the language level of the student and is teaching using strategies that are effective for that level.
3. Ensure that teacher is clearly explaining instructions and new vocabulary.

If the student has four data points below the aimline after 4 to 6 weeks in intervention:

1. Again review the cohort and if the cohort isn’t making progress, ensure that the above strategies are being applied.
2. If the cohort is making progress, but the student is not, make a change to the intervention as listed on the EBIS Protocol.
3. Review the cohort after each tier 2 intervention

If the student has failed to make adequate progress after one quarter in the most appropriately intensive intervention, begin the individualization process and collect and review the following:

- Developmental History
- Problem Solving Worksheet
- BICS & CALP Checklist
- Socio-Cultural Checklist (if needed)
- EBIS ELL Instructional History
- Acculturation Quick Screen (for students in US less than three years)

1. The EBIS Team selects an intervention that is specifically targeted to the student’s needs.
2. Continue to progress monitor the student and review the progress of the cohort.
3. If the student fails to make progress that is commensurate with their cohort after one semester, consider a referral for special education evaluation.
EBIS ELL Instructional History document

To be completed and considered by the EBIS team before placing an ELL student in an intervention.

### Who does this work?
- EBIS / EBS Teams
- EBS Teams & ALL STAFF
- Appropriate Staff as Determined by EBIS Teams (Principals, Counselors, and School Psychologists direct this process).
- Appropriate Staff Decided by EBIS Teams (Principals, Counselors, and School Psychologist direct this process).

### Review the Core
- Office Discipline Referral Data reviewed monthly. If more than 1 referral per day per month for every 250 students, revisit the CORE and look for patterns in location, time, grade, type, and frequency of incidents.
- If more than 20% of all students received 2 or more referrals: revisit the CORE.
- If more than 30% of referrals occur in a specific area of the school: re-teach specific common area behavior expectations, acknowledge/reward positive behavior, & correct inappropriate behavior immediately.
- If more than 40% of referrals occur in classrooms: re-teach classroom expectations, increase professional development in classroom management strategies, and/or revisit CORE instruction in specific classrooms.

*(See Page 2 for Decision Rules)*
**Secondary Standard Behavior Protocol Decision Rules**

**Decision Rules:**

- **Place Students in Tier 2 intervention if:**
  - Student has two or more Office Discipline Referrals in the current school year.
  - If more than 5 absences in a 30-day period: EBIS team reviews data to determine appropriate interventions, which may include calls or letters to the family or a behavior plan.

- **Progress monitoring:**
  - Behavior data from Check-in Check-out programs.
  - Progress on individual behavior goals or Behavior Support Plan.
  - Monitor Office Disciple Referrals (ODRs) and absences.

- **Place students in Tier 3 intervention AND have Red Zone Team monitor if:**
  - Progress is below the expected rate after 6 to 8 weeks of Second Tier Intervention. (Perform a Functional Behavior Assessment (FBA) and develop a Behavior Support Plan (BSP)).
  - Student receives 6 or more behavior referrals. Perform an FBA & develop a BSP and consult with the Care Coordinator and/or Juvenile Court Counselor, if applicable.
  - There is a significant concern regarding mental health issues or anti-social behavior.
  - Student’s behavior poses a potential risk to self or others (place in intervention and then perform FBA).

All students in Tier 3 Interventions must have a Functional Behavioral Assessment (FBA) and Behavior Support Plan (BSP) and be monitored by the Red Zone Team.

- In some instances, students might be referred to Red Zone Team prior to initiating the FBA/BSP process if complex mental health or safety issues are suspected.

Changes in Intervention

*Each of these changes constitutes a new intervention, and is decided upon by the EBIS team. These are the options available for academic and behavioral intervention changes.*

1. Add 15 or more minutes per intervention session (ex: extra time could be used to pre-teach vocabulary or core content)

2. Reduce group size by 2-3 students

3. Add a behavior plan and/or attendance intervention to increase instructional time, motivation and/or attention.

4. Change curriculum according to protocol if the current intervention is not addressing the student’s needs based on additional assessment (phonics screener, core program assessment, intervention placement test, etc.).

5. Add curriculum according to protocol based on additional assessment (phonics screener, core program assessment, intervention placement test, etc.) to provide additional practice on targeted skills.

The team may decide that the student needs more time in the current intervention along with a refinement in the instructional delivery based on the needs of the student by increasing the intensity of the intervention. In these instances, consult your EBIS coach.
Dear ____________________________:

(Parent / Guardian)

The Effective Behavior and Instructional Support (EBIS) Team has been monitoring the progress of your child, ________________________. The EBIS program’s purpose is prevention of academic and behavior problems, and supports group and individual programs for all students. ____________________ called you regarding your child’s progress on ________________.

Date

Teacher’s Name

The team is planning on meeting at school to discuss your child’s needs and plan an EBIS program on: ________________________________.

(Date)

We invite you to attend this meeting and would welcome participation in this process. If you would like attend, please contact ___________________________ at ______________________ for more specific information on the time and place. (Team Coordinator) (Phone Number)

If you have questions regarding the EBIS program, please contact your school principal or Dan Goldman, the District EBIS Director at 503-431-4117.

IMPORTANT NOTICE REGARDING SPECIAL EDUCATION: Sometimes students experience substantial on-going difficulties in school as the result of disabilities. If the school team or your child’s teacher(s) have this concern, they will contact you to discuss it. If you are concerned that your child may have a disability and is in need of special education services, please contact the school principal.

(Padre/ Tutor)

El Equipo de Apoyo de Instrucción y Comportamiento Eficaz (EBIS) ha estado evaluando el progreso de su hijo(a), ________________________. El propósito del programa de EBIS es la prevención de problemas académicos y de comportamiento, y para apoyar programas de grupos e individuales para todos los estudiantes. ______________________ se comunico con usted acerca de el progreso de su hijo(a) el _______________________ .

Nombre de Maestro(a)
Fecha

El equipo se reunirá en la escuela para discutir las necesidades de su niño(a) y planear un programa de EBIS el: _______________________.

Fecha

Usted está invitado a asistir esta reunión y será bienvenido para participar en este proceso. Si le gustaría asistir, por favor hable con ______________________ al ______________________ para información más específica del tiempo y lugar.

Nombre de Maestro(a)
Fecha

Si tiene preguntas con respecto al programa de EBIS, por favor de contactar al director de su escuela o Dan Goldman, el Director de EBIS del Distrito al 503-431-4117.

NOTICIA IMPORTANTE CON RESPECTO A LA EDUCACION ESPECIAL: A veces los estudiantes pasan por dificultades sustanciales en la escuela que resultan en inhabilidades de aprender. Si el equipo de la escuela o los maestros de su niño(a) tienen esta preocupación, ellos hablaran con usted para discutir esto. Si usted esta preocupado que su niño(a) tenga una inhabilidad de aprender y esta en necesidad de servicios de educación especial, por favor hable con el director de su escuela.
**RTI Parent Brochure – English**

- **How we determine who needs additional instruction:**

In Tigard-Tualatin School District, we review all elementary students’ progress three times a year. In middle and high school, we screen students when they enter school, and we review assessment, attendance, grade, and behavior data throughout the year. We track students’ achievement in reading especially carefully, and we also look at math and writing performance.

In some cases, all students are given a short assessment. Other times, a team of professionals simply reviews existing academic, behavior, and attendance information. The teams use the data to decide which students are doing well in the standard classroom instruction, which students may need supplemental instruction, and which students may need individualized instruction.

When students receive supplemental small group or individualized instruction, we check their progress frequently. We use “decision rules” to look at the students’ progress and decide if the child needs to have a different kind of supplemental instruction. The key idea is to make changes when instruction is not working for a child.

- **How we determine who needs additional instruction:**

  In Tigard-Tualatin School District, we review all elementary students’ progress three times a year. In middle and high school, we screen students when they enter school, and we review assessment, attendance, grade, and behavior data throughout the year. We track students’ achievement in reading especially carefully, and we also look at math and writing performance.

  In some cases, all students are given a short assessment. Other times, a team of professionals simply reviews existing academic, behavior, and attendance information. The teams use the data to decide which students are doing well in the standard classroom instruction, which students may need supplemental instruction, and which students may need individualized instruction.

  When students receive supplemental small group or individualized instruction, we check their progress frequently. We use “decision rules” to look at the students’ progress and decide if the child needs to have a different kind of supplemental instruction. The key idea is to make changes when instruction is not working for a child.

- **Parent participation:**

  Parents are essential to children’s success in school. When a child needs supplemental instruction, we will describe that instruction to you. We will also ask you to tell us about anything you think might affect your child’s learning. For example, it is important for us to know if a child has missed a lot of school, experienced a trauma, or is having problems with friends at school. These types of problems may affect a student’s progress, and if we know about them, we can design an intervention more effectively.

  Parents frequently partner with the school to provide extra practice to develop skills. If you do want to provide extra support at home, you can work with the school to make your part of your child’s program.

- **When children continue to have difficulty:**

  The school will tell you whether your child begins to make sufficient progress, or if your child has continued difficulty. If you and the school have tried several interventions, and progress is still limited, you may be asked to give your consent for an evaluation. The purpose of such an evaluation is to determine what your child’s educational needs are, and to consider whether he or she might have a learning disability.

- **Response to**
**Intervention (RTI)**

The approach described in this brochure is called Response to Intervention (RTI). This is a way of organizing instruction that has two purposes:

1. To identify children needing help in reading, math, and writing, and prevent the development of serious learning problems; and

2. To identify children who, even when they get extra help, make very limited progress. Research has shown that these children sometimes have learning disabilities.

You may also request an evaluation at any time if you think your child may have a disability. No evaluation would take place without a conference with you, and your written consent.

If you have any questions about this information, please contact the school’s Literacy Specialist or Principal.

---

**Your child’s instructional program in the Tigard-Tualatin School District**

Tigard-Tualatin School District is committed to ensuring each child makes significant academic progress. To do this, we continuously review information that tells us how each child is progressing. Teacher teams in your school use this process, called “Effective Behavior and Instructional Support.” Look inside to see how this process can help your child.
Cómo determinamos quién necesita instrucción adicional:

En el Distrito Escolar de Tigard-Tualatin, repasamos el progreso de todos los estudiantes en las escuelas primarias (K-5°) tres veces al año. En las escuelas secundarias (6°-8°) y preparatorias (9°-12°), examinamos a estudiantes cuando entran a la escuela, y repasamos exámenes, asistencia, grado y datos de comportamiento a través del año. Seguimos el logro de los estudiantes en la lectura muy cuidadosamente y también miramos cómo están en las matemáticas y la escritura.

En algunos casos, se les da a todos los estudiantes un examen corto. Otras veces, un equipo de profesionales simplemente repasa información existente académica, de comportamiento y de asistencia. Los equipos utilizan los datos para decidir cuáles estudiantes están haciendo bien en las clases de instrucción estándares, cuáles estudiantes pueden necesitar instrucción suplemental y cuáles estudiantes pueden necesitar instrucción individualizada.

Cuando estudiantes reciben instrucción suplemental en grupos pequeños o instrucción individualizada, nosotros supervisamos el progreso de los niños cada semana. Si un estudiante hace un progreso limitado durante una intervención individualizada, podemos pedir su permiso de conducir una evaluación individual. Esta evaluación puede resultar en la identificación de una in habilidad de aprender. No se conduciría ninguna evaluación sin su consentimiento escrito.

Participación del padre:

Los padres son esenciales para el éxito de los niños en la escuela. Cuando un niño necesita instrucción suplemental, le describiremos esa instrucción a usted. También le preguntaremos que nos diga sobre cualquier cosa que usted piense puede afectar la habilidad de aprender de su niño(a). Por ejemplo, es importante que nosotros sepamos si un niño(a) ha faltado mucho la escuela, ha pasado por una trauma o esta teniendo problemas con amigos en la escuela. Estos tipos de problemas pueden afectar el progreso de un estudiante y si sabemos sobre ellos, podemos diseñar una intervención con más eficacia.

Los padres se unen frecuentemente con la escuela para proporcionar práctica adicional para desarrollar habilidades. Si usted desea proporcionar ayuda adicional en el hogar, puede trabajar con la escuela para hacerse parte del programa de su niño(a).

Cuando los niños continúan teniendo dificultades:

La escuela le dirá si su niño(a) esta empezando a hacer progreso suficiente, o si su niño(a) ha continuado con dificultad. Si usted y la escuela han tratado varias intervenciones, y el progreso todavía está limitado, se le puede pedir por su consentimiento para una evaluación. El propósito de esa evaluación es para determinar cuáles son las necesidades educativas de su niño y para considerar si el o ella pueda tener una in habilidad de aprender.

Respuesta a la Intervención (RTI)
El enfoque escrito en este folleto se llama Respuesta a la Intervención (RTI). Esta es una manera de organizar instrucción que tiene dos propósitos:

1. Para identificar a niños que necesitan ayuda en la lectura, matemáticas y escritura y prevenir el desarrollo de serios problemas de aprender; y

2. Para identificar a los niños que, aun cuando se les da ayuda adicional, hacen un progreso muy limitado. Investigaciones han demostrado que estos niños tienen a veces inabilidades de aprender.

Usted también puede solicitar una evaluación en cualquier momento si usted piensa que su niño pueda tener una inabilidad de aprender. Ninguna evaluación se tomará acabo sin una conferencia con usted y su consentimiento escrito.

Si tiene cualquier pregunta sobre esta información, por favor hable con el Especialista de Alfabetización o con el Director de la escuela.

3. Did you have measles or any other childhood disease while you were pregnant?  Yes _____ No _____
   If yes, what did you have?  _____________________________________________________________

4. Did you have trouble giving birth?  Yes____ No ____
   If yes, what was the trouble?  _____________________________________________________________

5. Was your child born earlier than you expected?  Yes ____  No ____
   If yes, how many weeks early?  _____________________________________________________________

6. Was there anything unusual or wrong with the birth?  Yes ___ No ___
   If yes, please explain.  __________________________________________________________

7. Was your child born in a hospital?  Yes ____  No ____

8. In what country was your child born?  ___________________________________________________

9. What age were the mother and father at the birth?  Mother _____   Father _______

10. Is there a family history of any genetic conditions?  Yes____  No ____
    If yes, please explain_____________________________________________________________________
    Was genetic testing completed for your child? What were the results? _____________________________

Health History

11. Did your child have any illness or other concerns during the first year?  Yes ____  No ____
    If yes, what was the illness or concern?  ______________________________________________________

12 Have any of the following happened to your child?
   a. had a temperature over 104 degrees for more than a few hours?         Yes___  No___
   b. had to go to the hospital because of a temperature?  Yes___  No___
   c. ever been knocked unconscious?  Yes___  No___
   d. ever had a concussion?  Yes___  No___
   e. ever been in a coma?  Yes___  No___
   f. ever had any kind of an operation?  Yes___  No___
   g. ever been to a hospital for any other sickness or trouble not mentioned above?  Yes___  No___
   h. ever had problems with hearing or vision  Yes ___ No ___
   i. had frequent earaches?  Yes___  No___
      if yes, were tubes installed? _______  at what age? ______

If you answered yes to any of these questions, please tell about it:  ________________________________
13. Does your child take any kind of medicine or pills regularly for some condition?  Yes____  No____
   If yes, please tell what the medicine is for and how long your child has been taking it.______________
   ____________________________________________________________________________________

14. Has the child been diagnosed with any health problems? If so please explain:
   ____________________________________________________________________________________
   ____________________________________________________________________________________

Developmental Milestones

15. At what age did your child:
   a. sit alone ______  
   b. walk ______
   c. speak single words ______
   d. speak 2-3 word sentences _____

16. When was your child completely toilet trained?  _____________

17. At the present time, does your child ever have toileting accidents?  
   Yes____  No____

18. Does the child have any brothers or sisters? If so, list ages, gender, and whether they live at home.
   __________________________________________________________________________________________

19. Has your child’s speech and/or language development been significantly different than his or her siblings?
   (i.e. simpler vocabulary, later to begin speaking, difficulty following directions)  Yes_____  No_____  
   If yes, please explain ________________________________________________________________

20. Do people outside the family understand what your child says?  Yes____  No____
   If no, please tell about it.  ____________________________________________________________________
   __________________________________________________________________________________________

21. What language(s) is (are) spoken in the home? 
   What language does your child speak most often with friends? ________ siblings? ________
   What language does your child hear most often at home? ________
   In which language does your child generally respond? ________

22. Do both parents live at home?  Yes____  No____

23. Is there any history of learning problems and/or speech/language difficulties in the family?  Yes ____  No____
   Please explain __________________________________________________________________________

24. Is there any family history of physical or mental health problems?  Yes____  No____
   If so please describe:  _____________________________________________________________________
   _________________________________________________________________________________________

25. Please tell us about the reading habits of the adults in the home. How often and what types of materials do the adults read?
   Do you read with your child? Do you read in English or your native language (if different)?

26. How many different schools has your child attended? __________
   If your child’s primary language is not English, has your child had any formal schooling in their native language? _____
   For how many years? ________

27. Would you describe the child’s school attendance as poor, fair, or good? ________________
   If there have been any interruptions in your child’s school experience, please explain. ________________

28. Has your family experienced homelessness?  _______________________________________________
Developmental History

Birth History (Historial de Nacimiento)

1. How often did you see a doctor while you were pregnant? ¿Qué tan frecuente visito un doctor mientras estaba embarazada? □ Regularly (Regularmente) □ A few times (Algunas veces) □ Not at all (Nunca)

2. Were you sick or did you have any complications while you were pregnant? ¿Estuvo enferma o tuvo complicaciones durante su embarazo? □ Yes (Sí) □ No
   If yes, what did you have? Si sí, ¿Qué tuvo o cuales fueron las complicaciones? ____________________________

3. Did you have measles or any other childhood disease while you were pregnant? ¿Tuvo sarampión u otra enfermedad de niñez mientras estaba embarazada? □ Yes (Sí) □ No
   If yes, what did you have? Si sí, ¿qué es lo que tuvo? ________________________________________________

4. Did you have trouble giving birth? ¿Tuvo problemas al dar a luz? □ Yes (Sí) □ No
   If yes, what was the trouble? Si sí, ¿cuál fue el problema? _____________________________________________

5. Was your child born earlier than you expected? ¿Nació su niño(a) antes de lo que esperaba? □ Yes (Sí) □ No
   If yes, how many weeks early? Si sí, ¿cuántas semanas antes? __________________________________________

6. Was there anything unusual or wrong with the birth? ¿Hubo algo inusual o mal con el parto? □ Yes (Sí) □ No
   If yes, what was wrong? Si sí, ¿qué estuvo mal? ______________________________________________________

7. Was your child born in a hospital? ¿Nació su hijo(a) en un hospital? □ Yes (Sí) □ No

8. In what country was your child born? ¿En qué país nació su hijo(a)? _________________________________

9. What age were the mother and father at birth? ¿Cuál era la edad de la madre y el padre cuando nació su hijo(a) Mother (Madre) _____ Father (Padre) _______

10. Is there a family history of any genetic conditions? ¿Hay algun historial de condiciones genéticas en la familia? □ Yes (Sí) □ No
    If yes, please explain. Si sí, por favor explique ______________________________________________________
    Was genetic testing completed for your child? What were the results? ¿Se les hicieron pruebas genéticas a su hijo(a)? ¿Cuáles fueron los resultados? __________________________________________________________

11. Did your child have any illness or any other concerns during the first year? ¿Tuvo su hijo(a) enfermedades o algo malo durante el primer año? □ Yes (Sí) □ No
    If yes, what was the illness or concerns? Si sí, ¿cuál fue la enfermedad o que tenía mal? __________________________
12. Have any of the following happened to your child? ¿Algo de lo siguiente le ha sucedido a su hijo(a) alguna vez?
   a. had a temperature over 104 degrees for more than a few hours?
      ¿ha tenido temperatura sobre 104 grados F° (40 grados C°) por más de unas cuantas horas? □ Yes (Sí) □ No
   b. had to go to the hospital because of a temperature?
      ¿ha tenido que ir al hospital por razón de una temperatura? □ Yes (Sí) □ No
   c. ever been knocked unconscious? ¿ha perdido la consciencia?
      □ Yes (Sí) □ No
   d. ever had a concussion? ¿ha tenido una concusión cerebral?
      □ Yes (Sí) □ No
   e. ever been in a coma? ¿ha estado en un coma?
      □ Yes (Sí) □ No
   f. ever had any kind of surgery? ¿ha tenido algun tipo de cirugía?
      □ Yes (Sí) □ No
   g. ever been to a hospital for any other sickness or trouble not mentioned above?
      ¿ha visitado un hospital por cualquier otra enfermedad que no ha sido mencionada arriba? □ Yes (Sí) □ No
   h. ever had problems with hearing or vision? ¿ha tenido problemas de oído o la visión?
      □ Yes (Sí) □ No
   i. had frequent earaches? ¿ha tenido dolor de oídos frecuentemente?
      □ Yes (Sí) □ No
      If yes, were tubes installed? Si sí, ¿se instalaron tubos?
      □ Yes (Sí) □ No
      at what age? ¿a qué edad? ______

   If you answered yes to any of these questions, please tell about it. Si contesto sí a una de estas preguntas, por favor escriba sobre ello: __________________________________________________________

13. Does your child take any kind of medicine or pills regularly for some condition? ¿Toma su hijo(a) cualquier tipo de pastillas o medicina regularmente para alguna condición? □ Yes (Sí) □ No

   If yes, please tell what the medicine is for and how long your child has been taking it. ¿Si sí, por favor diga para qué es la medicina y por cuánto tiempo lo ha estado tomando su hijo(a)? __________________________________________________________

14. Has the child been diagnosed with any health problems? If so tell about them: Ha sido diagnosticado su hijo(a) con cualquier problemas de salud? Si sí, escriba sobre ello: __________________________________________________________

   Developmental Milestones (Etapas de Desarrollo)

15. At what age did your child ¿A qué edad su hijo(a)?:
   a. sit alone se sento solo ______ b. walk camino ______ c. speak single words dijo sus primeras palabras ______ d. speak 2-3 word sentences hablo oraciones de 2-3 palabras __________

16. At what age was your child completely toilet trained? A que edad fue entrenado completamente su hijo(a) para usar el baño? _______________

17. At the present time, does your child ever have toileting accidents? Actualmente, ¿ha tenido su hijo(a) accidentes en usar el baño? □ Yes (Sí) □ No

18. Does the child have any brothers or sisters? If so, list ages, gender, and whether they live at home. ¿Tiene su hijo(a) hermanos o hermanas? Si sí, haga lista de las edades, sexo, y si viven en casa o no. __________________________

19. Has your child’s speech and/or language development been significantly different than his or her siblings? (i.e. simpler vocabulary, later to begin speaking, difficulty following directions). ¿Ha sido significativamente diferente el habla o el desarrollo del lenguaje de su hijo(a) al de sus hermanos? (Por ejemplo usa vocabulario más sencillo, demoro mas en hablar, o se le dificulta seguir instrucciones). □ Yes (Sí) □ No

   If yes, please explain. Si sí, por favor explique: __________________________________________________________
20. Do people outside the family understand what your child says? ¿Entienden las personas fuera de su familia lo que dice el niño(a)?
   □ Yes (Sí) □ No
   If no, please tell about it. Si no, por favor escriba sobre ello.

21. What language(s) are spoken in the home? ¿Qué idioma(s) se hablan en casa?
   What language does your child speak most often with friends? ¿Qué idioma usa más su hijo(a) con amigos/amigas?
   ____________________________________________
   What language does your child speak most often with siblings? ¿con sus hermanos/hermanas?
   ____________________________________________
   What language does your child hear most often at home? ¿Qué idioma escucha más su hijo(a) en casa?
   ____________________________________________
   In which language does your child generally respond? ¿En qué idioma generalmente responde su hijo(a)?

22. Do both parents live at home? ¿Viven ambos padres en el hogar?
   □ Yes (Sí) □ No

23. Is there any history of learning problems and/or speech/language difficulties in the family? ¿Hay problemas de familia en el aprendizaje y/o dificultades de idioma?
   □ Yes (Sí) □ No
   Please explain. Por favor explique ____________________________________________________________

24. Is there any family history of physical or mental health problems? ¿Hay historial de problemas mentales o físicos en la familia?
   □ Yes (Sí) □ No
   If so, please describe (Si sí, describalo):

25. Please tell us about your reading habits of the adults in the home. How often and what types of materials do you usually read? Do you read with your child? Do you read in English? In your native language if it is other than English? Diganos acerca de sus hábitos de lectura (de los padres). ¿Qué tipo de lecturas leé y con que frecuencia? ¿Leé usted con sus hijo(s)? ¿Leé usted en Inglés? ¿Leé usted en Español?

26. How many different schools has the child attended? ¿A cuántas escuelas ha asistido el niño(a)?
   □ Yes (Sí) □ No
   If your child’s primary language is not English, has your child had any formal schooling in their native language? Si el idioma principal de su hijo(a) no es el inglés, ¿ha recibido instrucción formal en su idioma nativo?
   □ Yes (Sí) □ No
   For how many years? ¿Por cuántos años?

27. Would you describe the child’s school attendance as poor, fair, or good? ¿Cómo describiría la asistencia escolar del estudiante: Bueno, Regular, Malo?
   □ Yes (Sí) □ No
   If there have been any interruptions in your child’s school experience, please explain. Si ha habido interrupciones durante la experiencia escolar de su hijo(a), por favor explique ____________________________________________________________

28. Has your family experienced homelessness? ¿Ha experimentado su familia el quedarse sin hogar?
   □ Yes (Sí) □ No

29. Did your child attend preschool? ¿Su hijo(a) asistió a la pre-escuela?
   □ Yes (Sí) □ No
   Please list frequency, duration, and types of activities. Por favor haga lista de la frecuencia con que asistió, la duración y las diferentes actividades que hacían ____________________________________________________________
30. Now or in the past has your child been involved in any activities outside of school such as sports, playgroups, library visits, or scouts? ¿Está o ha estado su hijo(a) envuelto en alguna actividad fuera de la escuela tal como en deportes, grupos de juego, visitas a la biblioteca o ha sido excursionista/scout? Please list. Por favor haga mencione los. __________________________________________________________

31. What does your child like to do with just you? ¿Qué le gusta hacer a su hijo(a) con usted solamente? ______

32. What does the whole family like to do for fun together? ¿Qué le gusta hacer a la familia para divertirse juntos?______________________________________________________________

33. How much screen time or media does your child have access to daily? ¿Qué tanto tiempo pasa en la pantalla o que tanto acceso diario tiene al medio de comunicación?_________________________________________________________

34. When you want your child to do something, do you feel you have to repeat yourself more often than you would like to or feel that you should have to? Cuando usted quiere que su hijo(a) haga algo ¿siente que tiene que repetírselo más de lo que quisiera o que debería hacerlo? □ Yes (Sí) □ No

35. How does your child respond when you have to speak a second or third time, and what do you do? ¿Cómo responde su hijo(a) cuando usted tiene que hablarle una segunda o tercera vez, y que hace usted? ____________________________

36. What kinds of things do you expect or ask that your child do such as chores or responsibilities around the house (for example: cleaning his/her room, emptying the trash, answering the phone, etc.)? ¿Qué clase de cosas espera usted o le pide a su hijo(a) que hagan como quehaceres o responsabilidades alrededor de la casa (por ejemplo: limpiar su cuarto, tirar la basura, contestar el teléfono, etc.)? ____________________________

37. What does your child do that pleases you the most (those things that make you proud as a parent)? ¿Qué hace su hijo(a) que le agrada a usted (esas cosas que lo enorgullecen como padre/madre)? ____________________________

38. Does your child experience difficulty doing or completing homework? ¿Experimenta dificultad su hijo(a) para terminar la tarea? □ Yes (Sí) □ No

39. Has there been anything unusual that occurred to you and your family within the last five years, such as a major illness, death in the family, change of residence, divorce, moving away from family, etc.? ¿Ha habido algo inusual que le haya ocurrido a usted y a su familia dentro de los últimos cinco años, tal como una enfermedad grave, una muerte en la familia, cambio de residencia, divorcio, o que se hubieran mudado lejos de la familia, etc.? □ Yes (Sí) □ No (No)

If so, please explain and list when these things occurred. Si así fue, por favor explique y haga lista de cuando ocurrieron estas cosas. ____________________________________________________________

40. At present time, do you have any concerns about your child? Actualmente, tiene usted preocupaciones sobre su hijo(a)? □ Yes (Sí) □ No

If so, please describe (Si sí, describalo): ____________________________________________________________

<table>
<thead>
<tr>
<th>HYPOTHESIS DEVELOPMENT</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Does evidence support that the student’s problems may be primarily due to problems with attention, motivation, or other behavioral difficulty? Include data along with progress monitoring of behavioral supports.</td>
</tr>
<tr>
<td>2. Does evidence support that the student’s problems may be primarily due to attendance problems, or frequent school interruptions? If so, indicate reasons for absences and interruptions. What interventions have been put in place to address this issue?</td>
</tr>
<tr>
<td>3. Does evidence support that the student’s problems may be primarily due to other concerns like trauma, economic or cultural disadvantage, or other disabilities? Describe. Be sure to note when these issues occurred and their correlations with any academic concerns. What will be done to help the student be more successful?</td>
</tr>
<tr>
<td>4. Does the evidence support that the child’s difficulties may be the result of language difficulties in areas such as language processing, social language, or articulation? Indicate next steps.</td>
</tr>
<tr>
<td>5. Does the evidence support the hypothesis that the difficulty is due to limited English proficiency? Indicate next steps.</td>
</tr>
<tr>
<td>6. Does the evidence suggest that the student has low skills and slow progress despite intensive interventions?</td>
</tr>
</tbody>

Secondary EBIS 80% Meeting Guidelines

Team membership:
- Principal/Associate Principal
- Instructional Coordinator/Reading Teacher
- Counselor
- ELL Representative
- Special Education Representative
- Alternative Education Representative
- Grade Level/Content Area Team (20% Meetings Only)

Meeting tips:
- Use a projector or wall chart to display student data
- Meet only if the essential team members are present
- Remind the team that the focus of the meeting is general education and ensuring that all students are making growth
- Designate roles (timekeeper, facilitator, note taker)
- Review the purpose
- Stick to the agenda and protocol
- Organize the data before the meeting
- Celebrate successes

Purposes:
1) To determine the effectiveness of the core program and make necessary adjustments if it is not meeting the needs of most students.
2) To determine which students are in need of intervention, select appropriate interventions, and schedule interventions/progress monitoring.

Purpose 1. Examining the Core Program
Examine the data. *
- Attendance
- Behavior (ODRs, counseling referrals)
- OAKS
- MAZE
- Grade

Are 80% or more of your students meeting benchmark?
Are ALL subgroups making growth? (Grade Level, Course/Class, Ethnicity, SLP, ELL, Sped)
Have you set ambitious goals for the next quarter?

Yes: Celebrate! No: Discuss the following questions about the core program.

Reading, Math and Writing
- Are all teachers using the program with a high degree of fidelity?
- Is instructional time protected, or are there interruptions such as school assemblies, fire drills, etc.?
- Is the instructional block sufficient, or is more time needed?
- Are students grouped appropriately? (class with the lowest skills has the fewest students, class with the highest skills has the most students, most qualified teacher teaches the lowest performing students)
- What are homework policies, expectations, and support? Do they need revision? Support?

Acronyms
- ODRs – Office Discipline Referrals
- OAKS – Oregon Assessment of Knowledge and Skills
- SLP – Secondary Literacy Program
- ELL – English Language Learners
- SPED – Special Education
Attendance
- Is there a clearly articulated attendance policy?
- Is there sufficient outreach to families and a welcoming attitude toward all students?

Behavior
- Is the following in place: a school-wide behavior policy, a behavior curriculum and an EBS team?
- Are behavior expectations posted, taught, practiced, and reinforced at the school and classroom level?
- Are support personnel such as bus drivers and secretarial staff trained in positive behavior support?
- Do all staff understand and follow consistent guidelines regarding what constitutes a classroom or an office managed referral?
- Are there classroom and school-wide behavior incentive systems?
- How are homework policies, expectations, and support articulated? Do they support all students?

Purpose 2: Determine Which Students are in Need of Intervention

Reading, Math and Writing
Use OAKS, GRADE+, MAZE or other Curriculum Based Measures to identify students with skills in the lowest 20%.
- Examine data: Is the skill deficit in fluency? Accuracy? Comprehension? Vocabulary?
- Using core curriculum assessments and other classroom information, can the team identify other needs (math concepts, writing organization)?

ATTENDANCE
Review attendance data and identify students with more than 5 absences in a 30 day period.
- Is there a group of students with a similar attendance issue?
- Would breakfast with a counselor or daily check-ins improve the group’s attendance?
- Do individual students need an incentive system for arriving on time each day, a wake-up call, or home visits?

BEHAVIOR
Review behavior data and identify students with 3 or more discipline or counseling referrals in a 30 day period.
- Do behavior expectations need to be re-taught and reinforced to a select group of students?
- Are behavior prevention or intervention programs such as Too Good for Drugs/Too Good for Violence or Second Steps available?
- Should adult supervision be increased in common areas?
- Do parents need more support with managing behavior and parenting skills at home?
- Does a student need a behavior plan with clearly defined skills to be taught and established supports and expectations?
- Does a student need a Functional Behavior Analysis?

GENERAL
- Use standard protocols to determine which intervention program matches the group’s needs, what group size is appropriate, and how much time per day is needed for that intervention. For behavior and attendance issues, it may be more appropriate to plan at the individual versus group level.
- Determine which staff are trained (or need training) in the program and schedule the intervention time.
- Determine what will be used to measure progress, how often, and who will be responsible for data collection. When will the team reconvene to review student progress?
• Determine who will check fidelity of instruction and who will inform parents about team decisions.

**Secondary EBIS 20% Meeting Guidelines**

**Purpose:** To review progress monitoring for all students in interventions (20% group) and make decisions about whether to proceed with, discontinue, or change an intervention.

**Before meeting:**
Sort progress monitoring data into three groups (be sure to use decision rules to form the groups):
1) Students making sufficient progress
2) Students who need a modification to an intervention
3) Students ready to proceed to intensive intervention

**During meeting:**
1) Quickly review students making sufficient progress, determine if any student(s) should discontinue intervention.
2) Discuss groups or individual students in need of an intervention change. Consider whether a behavior plan is necessary, with the number of students in the intervention should be reduced, or whether the student should be moved to a more intensive intervention.
3) Note intervention changes on progress monitoring graph and/or EBIS forms.

**Individual Student Meetings-Conducted After an Unsuccessful Strategic Intervention**

**Purpose:** To review student information (progress monitoring, cumulative file, developmental history) and use it to plan an intensive intervention, or to review progress monitoring from intensive intervention to determine if referral is appropriate.

**Intensive Intervention Planning:**

**Before meeting:**
1) Use Individual Problem-Solving Worksheet to conduct file review
2) Counselor or school psychologist uses Developmental History to interview parents
3) ELL Teacher obtains ELL Family Profile and language level information
4) Invite parents to meeting

**During meeting:**
1) Review decision rules
2) Review data
3) Plan/modify intervention

**Intensive Intervention Review:**
1) Review progress monitoring from all 3 intervention phases and other student data
2) Review decision rules
3) Team discussion: Has the student made sufficient progress? Determine if referral is appropriate.

<td>If the student has a second language, the ELL teacher at the school obtains information about language and language development and the team completes the ELL Student Data Checklist.</td>
<td></td>
</tr>
<tr>
<td>f.</td>
<td>The <em>EBIS Individual Problem Solving Worksheet</em> is completed through a review of the student’s cumulative file.</td>
<td></td>
</tr>
<tr>
<td>g.</td>
<td>The EBIS team uses the information obtained from the developmental history and problem solving worksheet and the Reading Protocol or other relevant protocol to determine the appropriate Tier III intervention for the student.</td>
<td></td>
</tr>
<tr>
<td>7.</td>
<td>If MAZE data continues to be below the aimline after one semester in Language!, a referral to Special Education is considered.</td>
<td></td>
</tr>
<tr>
<td>8.</td>
<td>The <em>EBIS Student Intervention Profile</em>, <em>Developmental History Form</em>, <em>Progress Monitoring Data</em>, and the <em>Individual PS Worksheet</em> are attached to the Special Ed Referral Form.</td>
<td></td>
</tr>
<tr>
<td>9.</td>
<td>EBIS team reviews data on student performance at least 3 times each year (fall, winter, spring) to evaluate effectiveness of the core programs.</td>
<td></td>
</tr>
<tr>
<td>a.</td>
<td>Data regarding the core program are disaggregated by race, special programs (such as ELL and Sped), grade level, and subject area.</td>
<td></td>
</tr>
<tr>
<td>10.</td>
<td>Results of the triennial review are shared with grade level teams and changes are made as needed based on the data.</td>

# Gauging EBIS Implementation: How is Your School Doing?

<table>
<thead>
<tr>
<th>Intervention Design</th>
<th>&quot;Emerging&quot;</th>
<th>&quot;Developing&quot;</th>
<th>&quot;Established&quot;</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Individual teachers design interventions on their own</td>
<td>Teachers design interventions through casual collaboration with peers. Grade levels or teams may choose to skill group students</td>
<td>Teachers representing regular education, special education, Title I, and ELL work together to develop interventions for students</td>
</tr>
<tr>
<td>Intervention Format</td>
<td>Teachers use favorite interventions collected over years</td>
<td>Teachers use only &quot;Reteach&quot; modules in district adopted curricula or work from a &quot;laundry list&quot; of interventions</td>
<td>Building wide resources are tapped to provide a variety of research-based interventions where needed</td>
</tr>
<tr>
<td>Intervention Implementation</td>
<td>Teachers implement interventions only within the framework of their own classrooms or groups</td>
<td>Teachers may regroup students for skill-based interventions with colleagues on occasion</td>
<td>Grade level teams and building resource teachers work together to implement systematic group interventions</td>
</tr>
<tr>
<td>Consideration of Other Factors</td>
<td>No consideration is given to other factors (attendance, health, behavior, mobility) until the SPED eligibility meeting</td>
<td>File review information is reviewed without a standard format</td>
<td>Other factors are carefully scrutinized and interventions are designed/implemented to address them whenever possible. A standard format is used to display file review information</td>
</tr>
<tr>
<td>Progress Monitoring</td>
<td>Teachers judge student response to instruction based on observations and holistic, intuitive evaluation</td>
<td>Teachers check progress with measures like Oral Reading Fluency (CBM) checks periodically, either on an irregular or infrequent basis</td>
<td>School staff work together to establish systems through which students' progress is checked at least monthly and more often as interventions intensify</td>
</tr>
<tr>
<td>Special Ed. Referral for Suspected LD</td>
<td>Individual teachers make unilateral decisions about appropriate timing of SPED referral</td>
<td>Individual teachers are &quot;allowed&quot; to refer once required pre-referral steps are completed</td>
<td>Professionals make a group determination that a referral is appropriate (based on data indicating the student's response to interventions)</td>
</tr>
</tbody>
</table>
## Secondary EBIS Team Planning Survey

### EBIS Features

#### 1. Team Membership and Process: Building Level

<table>
<thead>
<tr>
<th>Feature</th>
<th>Not in Place</th>
<th>Partially in Place</th>
<th>Fully in Place</th>
<th>Notes for Goal Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. EBIS teams include principal, special education representative, literacy/reading specialist, counselor and/or psychologist, classroom teachers, and ELL teacher.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Principal, teachers, and representatives from special education, counseling, and ELL attend <strong>every</strong> meeting.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Grade level (or content/regional) teams meet regularly every four to six weeks.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Building principal provides instructional leadership at EBIS meetings (e.g., interprets data, guides intervention decision making, allocates resources, etc.).</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>e. Team roles are clearly defined (e.g., facilitator, time keeper, recorder)</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>f. All meetings have clearly defined agendas.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>g. Meetings include review of progress monitoring data for all students in 20% group. Decision rules from the appropriate protocol (reading, behavior, math) are used to guide changes in interventions.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>h. The building’s screening process quickly identifies new students who fall in the bottom 20% and places them in appropriate interventions.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>i. EBIS meetings run efficiently and are completed within the allocated time (30 - 60 minutes).</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>j. Specific data on student performance is used at the EBIS meeting to make decisions about student placement. These decisions are not made based on teacher report alone.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### 1. Team Membership and Process: Building Level (Continued)

<table>
<thead>
<tr>
<th>EBIS Features</th>
<th>Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>k. At least 2 times per year, teams review the effectiveness of the core program.</td>
<td></td>
</tr>
<tr>
<td>l. If less than 80% of students are at benchmark, teams discuss and plan for changes to the implementation of the core program. Data is analyzed based on grade, program, and ethnicity.</td>
<td></td>
</tr>
<tr>
<td>m. The minutes from the EBIS meeting are distributed within two days of the meeting. This documentation helps to clarify specific tasks that team members must complete before the next EBIS meeting.</td>
<td></td>
</tr>
</tbody>
</table>

### 2. Core Instructional Program

<table>
<thead>
<tr>
<th>EBIS Features</th>
<th>Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. A core reading program (Holt) is implemented consistently at your school.</td>
<td></td>
</tr>
<tr>
<td>b. The core curriculum is delivered for a minimum of 45 minutes a day across all grades at your school.</td>
<td></td>
</tr>
<tr>
<td>c. New teachers receive initial training in the core reading curriculum and returning teachers receive yearly refresher courses.</td>
<td></td>
</tr>
<tr>
<td>d. Teachers have ready access to high quality additional support (e.g., peer coaching, classes) as needed.</td>
<td></td>
</tr>
<tr>
<td>e. Teachers have received sufficient support to adjust the implementation of the core program based on students’ skills, while still maintaining fidelity to the program.</td>
<td></td>
</tr>
<tr>
<td>f. Building principal conducts frequent observations of classroom teachers to ensure effective instruction.</td>
<td></td>
</tr>
<tr>
<td>g. Building principal monitors what is taught to ensure core curriculum, common Language Arts assessments, and district priority standards are being taught with fidelity.</td>
<td></td>
</tr>
<tr>
<td>h. Assessments from the core program are administered and reviewed to guide decisions about student placement.</td>
<td></td>
</tr>
<tr>
<td>i. At least 90% of teachers in your school regularly use the district’s research-based literacy strategies and regularly incorporate reading as part of their core instruction.</td>
<td></td>
</tr>
<tr>
<td>EBIS Features</td>
<td>Rating</td>
</tr>
<tr>
<td>---------------</td>
<td>--------</td>
</tr>
<tr>
<td>3. Screening and Progress Monitoring Procedures</td>
<td></td>
</tr>
<tr>
<td></td>
<td>b. Progress is monitored weekly or bi-monthly according to protocol for all students receiving interventions.</td>
</tr>
<tr>
<td></td>
<td>c. Building staff (non-assessors) is thoroughly trained and skilled in data analysis and interpretation.</td>
</tr>
<tr>
<td>4. Reading Decision Rules</td>
<td></td>
</tr>
<tr>
<td></td>
<td>b. Progress is monitored and interventions changed based upon the decision rules if data indicates 3 to 4 points below the aim-line during a semester.</td>
</tr>
<tr>
<td></td>
<td>c. Prior to placing a student in an individualized intervention, the following are completed: The Problem Solving Worksheet, a developmental history, and if the student is receiving ELL services, an evaluation of his/her language level. Parents receive RTI Brochure at this time.</td>
</tr>
<tr>
<td></td>
<td>d. Decision rules are consistently followed for all students.</td>
</tr>
<tr>
<td>5. Reading Interventions</td>
<td></td>
</tr>
<tr>
<td></td>
<td>b. At least one member of the EBIS team is highly skilled and knowledgeable regarding the range of intervention options.</td>
</tr>
<tr>
<td></td>
<td>c. Interventions are chosen to address specific areas of need of the student. Students participate in a reasonable number of programs so as to have an aligned, coherent program without conflicting information being presented.</td>
</tr>
<tr>
<td></td>
<td>d. The Student Intervention Profile is kept up to date for each student in an intervention, with accurate program information and start and end dates for interventions.</td>
</tr>
</tbody>
</table>
## EBIS Features

### 6. Behavior and Attendance Concerns

<table>
<thead>
<tr>
<th>Rating</th>
<th>Not in Place</th>
<th>Partially in Place</th>
<th>Fully in Place</th>
<th>Notes for Goal Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. EBIS teams review attendance and behavior records at each meeting and place students who meet the decision rules into behavioral interventions.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Students in interventions due to problems with behavior or attendance have their progress monitored and the data reviewed at each EBIS meeting. If inadequate progress is made, interventions are intensified.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. If a student continues to have behavioral difficulties after a secondary behavioral intervention, a Functional Behavioral Assessment (FBA) is completed and a behavior plan developed.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### 7. LD Eligibility

<table>
<thead>
<tr>
<th>Rating</th>
<th>Not in Place</th>
<th>Partially in Place</th>
<th>Fully in Place</th>
<th>Notes for Goal Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Referrals are <em>always</em> accompanied by appropriate documentation (e.g., progress monitoring data, intervention information, student intervention profile, developmental history, problem solving worksheet)</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Students are referred for a special education evaluation if they fail to make adequate progress in the most intensive intervention (Language!) (unless extenuating circumstances are present).</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### 8. Parent Participation

<table>
<thead>
<tr>
<th>Rating</th>
<th>Not in Place</th>
<th>Partially in Place</th>
<th>Fully in Place</th>
<th>Notes for Goal Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. A system is in place that ensures that parents regularly receive screening and progress monitoring data.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Parents are consistently notified when students begin or change interventions.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Parents receive the TTSD RTI Brochure when their child is about to begin the individualized intervention.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Parents are invited to participate in EBIS decision making, with targeted outreach to parents with diverse needs (e.g. poverty, primary language other than English).</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
## EBIS Team Goals
